

\*if estimated remaining life is less than 3 years, divide replacement cost by remaining months to determine budget. Average replacement costs are estimates only. You should do your own research to determine the type of replacement and corresponding costs. For example:

Household Item	Life Est. (in years)	Age (in years)	Avg. Replace. Cost*	Est. Remain. Life (in years)	Monthly Budget*
Dishwasher <span style="color: lightblue; font-size: 2em; opacity: 0.5; font-family: cursive;">Example</span>	5-12	7	\$400-600	It's already 2 years past its low-end life span so you should begin budgeting for replacement now & <b>expect to replace within 2 years.</b>	\$24 <small>Budget the high end (\$600) and divide by 24 (which will give you the monthly saving so you can purchase in 2 years)</small>

Household Item	Life Est. (in years)	Age (in years)	Avg. Replace. Cost*	Est. Remain. Life (in years)	Monthly Budget*
Dishwasher	5-12		\$400-600		
Garbage Disposal	5-12		\$125-200		
Washers/Dryers	8-12		\$400-600 each		
Water Heaters	8-12		\$425-800		
Refrigerators	15-20		\$800-2,000		
Stoves	15-20		\$600-1,400
